

Our strengths include wide-ranging knowledge, in-depth expertise and long-term commitment.

We deliver reliable, sustainable and efficiently produced interior door systems for the world's leading train manufacturers. We are known on the international markets as a trusted and forward-looking partner that promotes sustainability and combines experience, vision and an understanding of the industry.

Our service portfolio includes design, installation and commissioning support, maintenance, modernization, spare parts and technical support during the life-time of the fleet. Safety, reliability, sustainability and optimizing life cycle costs are the core drivers of our engineering and development.
